COMPANY PROFILE

OUR SERVICES

About Us

Established in 1993, JEL Electrical Ltd operates as an electrical and mechanical engineering contractor throughout the Northwest. We have built a reputation for high quality installations and superior standards of service.

CORE VALUES

As a professional electrical contractor we undertake all aspects of planning, design, installation and maintenance of electrical services. Our aim is to provide our Clients with innovative solutions to their individual needs and requirements. We provide a reliable, professional service with quality guaranteed along with excellent customer service; it is our aim at JEL Electrical to not only meet our Clients needs but to exceed their expectations at all times.

TESTIMONIALS

Our People

At JEL Electrical we employ the highest calibre of individuals to ensure our team of engineers have the technical capability, experience and expertise to successfully manage each stage of project specifications.

CASE STUDIES

The forward thinking attitude of our employees proves to be an invaluable tool with the generation of open and honest relationships with our Clients.

CONTACT US

Testimony to this is the level of repeat and referred business we acquire from our existing Clients; some of which have been with us since our inception.

COMMERCIAL INDUSTRIAL DOMESTIC

OUR SERVICES

Mechanical

JEL provide a wide range of mechanical services including ventilation extractors for large commercial units.

Complete/Partial Rewires

JEL have vast experience of dealing with complete or partial rewires and are able to complete these around staff and customers with minimal disruption. We impose increased Health and Safety practices to ensure no incidents occur and have an impeccable track record.

Display Lighting

JEL are able to design bespoke lighting systems for small, medium and large projects. We have vast experience of dealing with display lighting and these can be controlled via a panel or via remote control.

Mood Lighting

JEL specialise in innovative forms of mood lighting and are able to diffuse light in creative ways using cutting-edge technology. Our experienced team can design a lighting system which can alter the look and feel of a space by the touch of a button.

Maintenance and Repairs

JEL have a team of experienced engineers who carry out regular maintenance surveys for our Clients to ensure their products are working efficiently to prolong their life and ensure reliability. We also offer an emergency call out facility for all our Clients should the need arise.

Portable Appliance Testing (PAT)

JEL offer Portable Appliance Testing for all appliances with a mains plug. JEL ensure our Clients fulfil their legal obligations with regard to equipment safety.

Periodic Inspection Report (PIR)

JEL offer Periodic Inspections to report on the condition of existing electrical installations to identify any deficiencies. These comply to BS7671 (17m Edition).

A periodic inspection will:

- Reveal if any of your electrical circuits or equipment is overloaded
- Find any potential electrical shock risks and fire hazards in your electrical installation
- Highlight any lack of earthing or bonding
- Highlight any wear and tear or other deterioration on all equipment installations.

Security Alarms

JEL's approach to intruder alarms and security alarm systems ensures that your bespoke system is user-friendly, simple, trouble free and effective at protecting your business, employees, visitors, information and assets.

CCTV

JEL are able to supply & install state of the art Closed Circuit Television equipment & software enabling you to monitor and protect your sites remotely from any PC, PDA or mobile phone.

CORE VALUES

As JEL has evolved as a company, we have built our management team around our core beliefs and values. We choose to work in partnership with our Clients to ensure all projects are completed:

- **on time**
- **within the agreed budget**
- **to the ultimate satisfaction of the Client**
- We are committed to environmental protection and sustainability and ensure, where possible, we minimise our impact on the globe
- We strive to remain a market leader within the industry
- We encourage a “can do” attitude and the sharing of ideas and information
- We treat our Clients as we expect to be treated; with respect, integrity and professionalism
- We aim to exceed our Clients expectations and deliver the highest quality product, on time and within the agreed budget
- We adhere to all Regulatory and Health and Safety requirements and invest in training and technology to ensure we remain compliant and up-to-date with the latest technology
- We encourage innovative solutions to project requirements

TESTIMONIALS

Browns Shopfitting & Construction Limited

PROJECT VALUE: £90K

Project Details: Various shop fitting projects

We have worked with Colin from JEL Electrical for 20 years. They have completed the electrical work on several projects for Browns, including commercial shopfits and domestic works. We have always found their level of service to be excellent; they employ a very knowledgeable and skilled workforce who conform to all CDM regulations. The projects run smoothly, achieving set timescales. The office staff are always very helpful and more than happy to deal with any requests. We would highly recommend JEL Electrical for any projects requiring electrical work.

Daren Brown Title/Position: Managing Director

JTF Cash

PROJECT VALUE: £68K

Project Details: Various Projects

I have worked with JEL Electrical Ltd on various projects and found the level of service to be excellent. The office staff are helpful and responsive and are always willing to assist. All projects run smoothly from start to finish and I am always extremely pleased with the end results. I would have no hesitation in recommending JEL Electrical Ltd to others and will continue using them.

TESTIMONIALS

Plan-it

PROJECT VALUE: £48K

Project Details: Exterior landscaping installation

I worked with Colin on an exterior landscaping installation project and found his hands on approach to managing jobs to be excellent. The job was tricky but the open communication meant that issues were resolved in a timely manner. The lads on site were efficient and the job was completed on schedule and within budget. I'm planning to use JEL Electrical Ltd again for future projects.

Steve Dawson Title/Position: Managing Director

JYSK

PROJECT VALUE: £100K - £150K

Project Details: New Build and Refurbishment

I have used several electrical suppliers and fitters previously and have recently used JEL Electrical Ltd for the new build and refurbishment project. Although there were some initial teething problems regarding the plans, JEL resolved these efficiently and put forward several innovative solutions to resolve these. I have been very impressed with the work and would be happy to use JEL Electrical again.

CASE STUDIES

CLIENT NAME: Makro
CONTRACT: Store Refurbishment

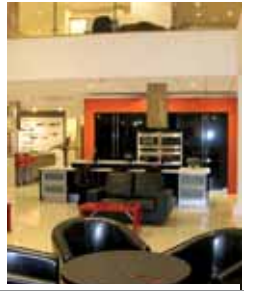

DETAILS: JEL Electrical secured the refurbishment project for several Makro stores which include the Manchester store refurbishment and Queensferry new build and refurbishment. Due to store operational requirements, JEL planned ahead in terms of logistical challenges and this, coupled with our extensive experience of dealing with projects of this nature enabled us to seamlessly deliver high specification lighting schemes within each store. JEL worked around Staff and Customers and ensured their safety was of paramount importance. Even working under challenging circumstances, JEL managed to complete the projects on time and within the agreed budget. Testimony to level of customer service JEL deliver, coupled with our innovative design and flexibility is the level of repeat and referred business we receive

PROJECT VALUE:
£950,000 per store

CLIENT NAME: Kutchen Haus
CONTRACT: Full Store Refurbishment – New Build

DETAILS: JEL Electrical secured the refurbishment project for Kutchenhaus Kitchen Show Rooms. JEL offered a full package to Kutchenhaus; incorporating the design and installation of various lighting and heating schemes along with IT systems, fire safety and energy saving programmes. JEL worked around Staff and Customers and ensured their safety was of paramount importance. JEL pride themselves on a 'minimal impact' presence and give consideration for store opening hours as well as offering an operational business environment. Even working under challenging circumstances, JEL managed to complete the project on time and within the agreed budget confines.

CONTRACT VALUE:
£460,000

COMMERCIAL INDUSTRIAL DOMESTIC

CASE STUDIES

CLIENT NAME: JYSK
CONTRACT: Full Store Refurbishment – New Build

DETAILS: JEL carried out the full design, installation and maintenance for JYSK; this project included the lighting and heating schemes as well as IT systems and energy saving programmes. JEL designed products around some of the existing plant and reused existing heating systems; in order to save our Client money. The aim of this project was to offer the Client a design which provided the most efficient lighting solution; in addition to this we added controls to further this energy saving effect. The project had tight budgets and timings and through working closely with management JEL delivered the project on time and to budget.

CONTRACT VALUE:
£320,000

CLIENT NAME: JTF Wholesale
CONTRACT: Full Store Refurbishment & Extension

DETAILS: JEL carried out a “Complete Solutions Package” for JTF Wholesale. This incorporated the design, installation and programming of lighting and heating schemes as well as IT systems and energy saving programmes. Store opening hours and customer footfall is a consideration JEL had to factor in when planning the execution of the project; as a result of this, heightened Health and Safety practises were imposed to ensure the smooth delivery of the scheme. JEL have since carried out various contracts with JTF which is testimony to the level of service they have received from us.

CONTRACT VALUE:
£420,000
